Session #23.5—in Salon II

9:30-11:20 am | Trey Erickson & Students

Some of Trey Erickson's students will be sharing their PBL work. They will be creating a 4-5 course meal menu for the teachers who attend. The 9th grade physical science students will include the physical and chemical changes that occurred in their recipes and also discuss any processes used to speed the rate of reaction in their menu. They will have a poster board style presentation set up either in the registration area or the vendor area. Students are in a combined Algebra and Physical Science course.
