
SDCTM Purpose

The purpose of the South Dakota Council of Teachers of Mathematics is to encourage and maintain an active interest in and an appreciation of mathematics, promote professional growth of mathematics educators, to provide a forum for the exchange of views regarding the teaching of mathematics, to develop a cohesive link between and to promote the cooperative study of mathematics education at all levels, to integrate the study of mathematics into other areas of school curriculum, and to relate the study of mathematics to situations in life.

We host a conference each February, and a symposium each summer to help achieve the aforementioned goals.

We provide support for South Dakota mathematics teachers, connect them to each other, and act as a clearinghouse for information regarding mathematics and mathematics education.

We act individually and collectively as consultants for school districts and for the Department of Education.

We represent member concerns with Department of Education policies and actions.

Dear Friend of Mathematics,

On behalf of the South Dakota Council of Teachers of Mathematics, I would like to personally invite you to join our organization. We represent the mathematics teachers of our state. In addition to sponsoring outstanding professional development opportunities, SDCTM is a vehicle for networking with other mathematics professionals in South Dakota.

At SDCTM, we are dedicated to improving mathematics education for all students. I hope that you will join us!

Sincerely,

Jay Berglund
SDCTM President

SDCTM Activities and Projects

SDCTM is dedicated to providing effective leadership for improvement of mathematics education in South Dakota. SDCTM works to

provide opportunities for mathematics educators to connect with one another and improve their practice.

Projects

- South Dakota Mathematics Content Standards / Common Core Standards
- Planning and implementation of revised Math Standards and rollout courses 2004-2006
- Dakota STEP assessment review
- Performance Assessment project
- Testify to SD Board of Education regarding mathematics issues
- Consult with the SD Department of Education on mathematics issues
- Online mathematics assessment project with SD Department of Education

Professional Development

- SDCTM/SDSTA Annual Professional Development Conference (Huron SD) includes nationally recognized featured speakers and over 100 sessions by and for South Dakota's math and science teachers
- SDCTM Annual symposium offers in-depth sessions about current topics in mathematics education

Publications

- **Wahpe Woyaka pi** (TALKING LEAF), the SDCTM journal, is published quarterly. It contains articles, activities, and information about mathematics education. The journal is written by and for South Dakota mathematics educators.

- **www.sdctm.org** is the official website of SDCTM. Online postings include links, contact information, professional development opportunities, photos, and position statements. The website is updated frequently to best serve the pre-K to post-secondary mathematics educators of South Dakota.
